THREE WAYS TO SAVE

TAX CREDITS

Lower your monthly premium cost. You can apply the credit directly to your monthly premium to save each month. Or, you can wait and apply the credit when you file your taxes, lowering the amount you owe or increasing your refund.

COST-SHARING REDUCTIONS

Lower the amount you pay out-of-pocket when you need care, such as lower deductibles, copays or coinsurance.

MEDICAID

Free or low-cost coverage for people who qualify.
