

Penalty for

Uninsured Marylanders

Most people are required to have health insurance or pay a penalty in their taxes.

Financial help is available to lower the cost of coverage, and all plans cover preventive care at no cost to you, like checkups, immunizations, cancer screenings and more.

The fee for not having health insurance is \$700 per person per household, or 2.5 percent of your household income, whichever is higher.

You can enroll in health insurance through Maryland Health Connection.

WITH HEALTH INSURANCE, YOU PROTECT YOUR HEALTH AND YOUR WALLET.

Avoid the fee and get covered today. You can enroll online, over the phone or with local, in-person assistance.
